Legal Technology & Innovation Middle East 2019

The **Legal Technology & Innovation Middle East 2019** conference will be in Dubai, United Arab Emirates, on Feb. 18, 2019.

The objective of the event is to raise awareness about the possible applications on advanced technologies in legal practice. This is a one-day conference, bringing together a community of legal professionals and digital visionaries in order to discuss and develop the legal industry of the future. This will be a first of its kind gathering in the region, where software developers, the digital revolution's driving forces, and legal practitioners, meet for the first time.

The conference acts as a medium for the promotion of knowledge and the potential application of technology and software supported solutions for Middle East's legal industry, according to conference organizers.
