

# What You Need to Know About Contract Management Software and Small Legal Teams

ContractWorks has published a new guide: **Contract Management Software for the Small Legal Team: Why It's Not Just for the Big Fish Anymore**, to navigate contract management options so the right solution can be found.

The guide discusses:

- How small legal teams are benefiting from contract management software
- How new solutions are designed to be easy and affordable
- How customization and cloud storage means there's software for every legal department
- How automation, AI and machine learning can elevate contract management
