

America's Top Trusted Corporate Law Firms 2019

Forbes has partnered with market research company Statista to create a list of **top U.S. corporate law firms**, selecting 243 firms and identifying the most recommended ones in 17 practice areas, based on survey responses from 2,500 lawyers.

“The results include not only names well-known in the corporate and legal worlds—white-shoe law firms and members of London’s so-called “magic circle” of top law firms—but also boutique firms that focus on very specific branches of the law,” explains the article.

Of the 243 firms on the list, Kirkland & Ellis is the top revenue-producing firm in the world, with more than \$3 billion in annual revenue. Also on that \$3 billion list is Latham & Watkins.
