

Anticipating a Recovery After the Oil Price Decline

World Oil has scheduled a free webinar presenting its projections of spending and activity relating to the global petroleum exploration and production industry.

The webinar will be Tuesday, Feb. 24, at 10 a.m. Central time.

During the 50-minute event (including a Q-and-A period), the editors will discuss:

- U.S. drilling forecast for 2015 versus 2014 well totals, including an analysis of activity
- A global drilling forecast for 2015, featuring a breakout of global offshore activity
- U.S. and worldwide oil production figures for 2014 versus 2013
- Estimates for U.S., Canadian and worldwide upstream capital expenditures during 2014, and projections of planned capital expenditures for 2015
- Various geopolitical factors affecting upstream activity

Register for the webinar.
