Defending Against Phishing: Case Studies and Human Defenses

Bank Info Security is promoting a **free webinar** on avoiding phishing: unauthorized access to corporate and organizational networks that has cost businesses millions of dollars.

The webinar is scheduled for two presentations: Tuesday, Dec. 22, 2015, at 1:30 p.m. EST, and Tuesday, Jan. 6, 2016, at 3:30 p.m. EST.

PhishMe COO Jim Hansen will draw on his 25 years in law enforcement and IT security to discuss:

- Conditioning employees to identify and avoid phishing attacks
- Empowering users to quickly and easily report suspicious emails
- Analyzing suspicious emails to provide contextual real-time attack intelligence
- Attack case studies & attacker technique analysis

Register for the webinar.
