PROGRAM

Is your outside counsel making your life easier? Getting the most from your outside counsel relationships requires proactive management, clear communications, and a thorough understanding of their areas of expertise.

Register for this webinar and learn from experienced in-house counsel on the best practices for retaining and working with outside counsel, with a specific focus on selecting and managing outside counsel to protect and defend your company's intellectual property.

Often, IP outside counsel are relied upon to secure valuable intellectual property assets, including patents and trademarks, and to sometimes defend the company in litigation disputes, all areas with substantial financial impact. To choose the right IP counsel for your company, it is vital to understand what factors should be considered: what technology or special backgrounds to seek, and what is the breadth of the firms' practice (patents, trademarks, copyrights, litigation).

The panel includes:

Tom Brown, Senior Managing Legal Director, Head of IP Litigation, DELL Technologies

Lesley A. Hamlin, Vice President and General Counsel, Intellectual Property, Operations and Emerging Businesses, Citrix

Dave Schuler, Chief IP Counsel, BOSE

Moderator: Andrea Reed, Of Counsel, Lando & Anastasi, LLP

During this webinar, the panel will provide practical tips for securing, building, and fostering the most effective working relationships, including:

- Retaining outside counsel for specific services
- Using Requests for Proposals
- Negotiating engagement agreement
- Building a long-term relationship
- Applying best practices from other firms
- Setting expectations for services, communications, and technology, particularly for tracking and communicating sensitive information.

Save Your Spot for June 7th!
