

Blank Rome Expands Privacy, Security & Data Protection Practice with Leading Team in California

Blank Rome LLP is pleased to welcome three new attorneys to the firm's Corporate, M&A, and Securities group, notably enhancing the firm's Privacy, Security & Data Protection practice: partners Sharon R. Klein, who will serve as chair of the Privacy, Security & Data Protection practice, and Alex C. Nisenbaum, as well as associate Karen H. Shin. The prominent team will also establish a new office for Blank Rome in Orange County, California. They join Blank Rome from Troutman Pepper Hamilton Sanders LLP where Klein led compliance for the Cybersecurity, Information Governance and Privacy practice group.

The team collectively advises clients on state, federal, and international data privacy and information security laws, regulations, and rules, including compliance with HIPAA/HITECH, Gramm-Leach-Bliley, and the California Consumer Privacy Act. They have significant experience assessing and mitigating risks related to the privacy and security of personal data; data ownership and commercialization of data; artificial intelligence; planning, auditing, drafting, and implementing privacy, security, and data protection policies and best practices; and breach response, crisis management, and investigation strategies for non-compliance. They are also well-versed in negotiating and drafting complex technology and cloud transactions, licensing, and strategic IT and commercial agreements. Their clients span a variety of industries, such as healthcare, consumer goods, e-commerce, FinTech, pharmaceutical, medical device, financial services, education, automotive, and manufacturing. Klein and Nisenbaum are also

both certified as information privacy professionals by the International Association of Privacy Professionals.

Klein brings more than 40 years' experience to Blank Rome and is a known thought leader in data privacy, cybersecurity, and complex technology transactions. Her acumen in data privacy stems not only from her significant experience executing outsourcing and technology contracts, but also from the 12 years she spent as associate general counsel at Siemens Medical Solutions USA where she notably focused on operationalizing healthcare and life science regulations, including HIPAA/HITECH and the Common Rule. Klein is active in many organizations, serving as a board member of the Girl Scouts of Orange County; a member of HIMSS (Healthcare Information and Management Systems Society); a commissioner of the Electronic Healthcare Network Accreditation Commission; and a member of the U.S. Department of Health and Human Services task force working to promote national cybersecurity standards. Klein earned her J.D. from Temple University School of Law and her B.A., summa cum laude, Phi Beta Kappa, from Syracuse University.

Nisenbaum synthesizes the patchwork of state and federal legal requirements to assist clients in bringing innovative products to market and develop compliance programs that are in line with their business goals. He notably advises consumers and vendors of information technology products and services on commercial technology agreements involving cloud services and software licensing, software and mobile application development, information technology and business process outsourcing, hardware acquisition, telecommunications, data licensing, and professional services. Alex earned his J.D. from UCLA School of Law and his B.A. from the University of California, Los Angeles.

Shin focuses on a diverse range of data privacy and information security matters, including compliance with various privacy laws and regulations. She also assists clients

in developing and implementing internal and external privacy policies as well as drafts various technology-related agreements and performs due diligence reviews. She is a member of the Orange County Korean American Bar Association. Karen earned her J.D. from the University of California, Irvine School of Law, and her B.A. from New York University.
