

Can Your Company Withstand \$50 Oil?

PwC will host a complimentary webinar titled “Fit for \$50 oil: Is your company in shape?”

The webinar will be Wednesday, Nov. 19, at 1 p.m. Central time.

The discussion will explore the dynamic levers impacting the current price of oil, and introduce PwC’s “stress test” that evaluates financial, operational, commercial, portfolio, and talent factors to reveal the indicators that signal the ability of a company to withstand a period of sustained low prices, the company says on its website.

The recent decline in oil prices has reinforced two realities: commodity prices change and the energy industry is a cyclical business. When prices go down, companies are faced with different challenges and opportunities than the preferred \$90+/bbl environment presents.

Register for the webinar.
