

Chambers USA 2021 Legal Guide Honors Dallas Trial Attorney Mark Werbner

DALLAS – High-stakes trial lawyer Mark Werbner is honored in the Chambers USA 2021 legal guide for his work involving commercial litigation in Texas. It's a recognition he has earned since 2013.

Published by London-based Chambers and Partners, the Chambers USA guide is considered the gold standard for business law firms. Selections are based on a rigorous search process that includes interviews with clients and lawyers. Criteria include technical legal ability, client service, professional conduct and other qualities valued by clients.

Known for his role in a high-profile trial where he secured a historic jury verdict against a Middle Eastern bank for providing material financial support to terrorists, Werbner has handled approximately 150 jury trials in his more than 30-year career and has secured some of the largest jury verdicts in the country.

More recently, he was part of a legal team that won a False Claims Act case against Texas Heart Hospital of the Southwest. Werbner also represented a Forest Park Medical Center founding physician accused in a high-profile fraud and kickback scheme.

Often recognized by his legal peers as one of the most accomplished trial attorneys in the nation, Werbner has a long list of accolades. For years, he's been recognized by The Best Lawyers in America, Benchmark Litigation and Texas Super Lawyers.

A co-founder of Dallas' successful Sayles Werbner law firm, he launched Werbner Law on March 1 after a two-year stop at

Winston & Strawn to focus on business, commercial and personal injury litigation as well as white-collar criminal defense.
