

CobbleStone Releases Multi-language Enhancements for Contract Insight Enterprise

CobbleStone Systems, a leading provider of contract management software, announced it has launched enhanced multi-language support for Contract Insight Enterprise Edition. The latest version of Contract Insight Enterprise offers optional multi-language support for dynamic menu items and fields for international users.

“CobbleStone has been providing contract management software for organizations around the world that allows them to better track, manage and automate the full contract lifecycle,” the company said in a release. We understand the importance of collaboration between international divisions, and our software now offers the ability to support each user comfortably.”

The release continues:

CobbleStone Systems Corp. is a leader in user-friendly, enterprise contract lifecycle management software solutions. CobbleStone has been a best-of-breed vendor since 1995, provides the benefit of years of experience, is a Federal GSA vendor, is rated by Gartner and Dun & Bradstreet, and offers one of the most feature-rich products on the market.
