

CobbleStone Systems Releases MS Word App for Contract Insight Enterprise

CobbleStone Systems, a provider of contract lifecycle management software, announced it has launched an enhanced Microsoft Word App for Contract Insight Enterprise Edition. The latest version of Contract Insight Enterprise offers an Install Pak with an innovative MS Word Application for seamless contract revisions and version control.

“CobbleStone has been providing industry-leading contract management software which allows legal resourced to more easily track, manage, negotiate and approve organizational contracts for over 20 years,” the company said in a release. “We understand the need for a seamless connection with MS Word and our web-based CLM to effortlessly track all versions of each contractual document. Our new features save our clients’ time and effort during the contract redlining process.”

The release continues:

CobbleStone Systems Corp. is a leader in user-friendly, enterprise contract lifecycle management software solutions. CobbleStone has been a best-of-breed vendor since 1995, provides the benefit of years of experience, is a Federal GSA vendor, is rated by Gartner, Forrester and Dun & Bradstreet, and offers one of the most feature-rich products on the market.
