

Construction Contracts: Owner's Project Controls Review

✖ As a part of its ongoing webinar series “Understanding construction contract controls and construction audit best practices,” Baker Tilly will present a complimentary webinar on the use of testing and verification to help a development team deliver a successful project.

The webinar will be Wednesday, Sept. 10, at 12 p.m. Central time.

On its website, Baker Tilly says that through a series of case studies, presenters will illustrate effective and ineffective project control scenarios and how to verify that the project controls environment is performing as expected. Webinar participants will learn:

- Project controls fundamentals
- Audit red flags and under-performance indicators
- Audit program elements

Register for the webinar.
