

Building a Transformative Contract Management Practice

ContractRoom has published an ebook on building a transformative contract management practice.

The book covers:

1. The roles and duties and essential qualities of a top contract manager
2. How to assess candidates for suitability during the recruitment process
3. What can and cannot be controlled in the contract management process?
4. Planning for the transition of arriving and departing contract manager employees
5. Monitoring the productivity of your contract managers
6. Looking towards the future of contract management
