Building a Transformative Contract Management Practice

ContractRoom has published an ebook on building a transformative contract management practice.

The book covers:

- The roles and duties and essential qualities of a top contract manager
- 2. How to assess candidates for suitability during the recruitment process
- 3. What can and cannot be controlled in the contract management process?
- Planning for the transition of arriving and departing contract manager employees
- 5. Monitoring the productivity of your contract managers
- 6. Looking towards the future of contract management
