The Buyer’s Guide to Contract Lifecycle Management Software

ContractWorks has published “**The Buyer’s Guide to Contract Lifecycle Management**,” a comprehensive, complimentary guide available for downloading.

The decision to purchase and implement contract lifecycle management software is not one most companies take lightly, the company says. There are currently over 100 solutions in the market- everything ranging from bare-bones, free solutions, to extremely complex and very expensive solutions- and everything in between. Knowing where to start can be tough, that’s why we’ve put together this guide.

This guide covers:

•The top three reasons companies choose to implement contract management software
•The key benefits companies realize from implementing software
•Budget and cost considerations
•Implementation times and how this can affect the ROI of your purchase
•Security considerations for CLM solutions
•Key factors to consider when vetting providers- including solution scalability and company/vendor reputation
