Deepen Your Compliance Expertise in 2020 with SCCE

The Society of Corporate Compliance and Ethics will host Academies in 18 locations worldwide to help **Deepen Your Compliance Expertise in 2020**.

Learn to effectively manage a compliance and ethics program and mitigate risk at your organization at one of SCCE's Basic Compliance & Ethics Academies. They are ideal for professionals who want to raise their knowledge level and help improve the effectiveness of their organization's program.

While at the Academy, you can also take an optional Compliance Certification Board (CCB)® exam. They offer the Certified Compliance & Ethics Professional (CCEP)® exam at US Academies and the Certified Compliance & Ethics Professional – International (CCEP-I)® exam outside of the US. Learn more about certification and the exam at **SCCE** to see if you meet the criteria and have the practical work experience it takes to become certified.
