

Franchise Disclosure Compliance: The Nuts & Bolts

Dickinson Wright LLP will present a free **webinar** highlighting many of the “must do” or “must consider” matters for compliance with franchise disclosure legislation in U.S. The event will be Tuesday, Jan. 19, at 3 p.m. EST.

This webinar will provide basic practical assistance to those preparing, registering and delivering franchise disclosure documents, the firm says on its website. Some of the information is directed to all persons involved in the disclosure process and some of the information is intended for those persons that must make determinations about what disclosures must be made. The emphasis of the webinar will be on common disclosure errors and how to avoid them.

Register for the webinar.
