

Uncovering Risks in Your Business

ECM Solutions of Charlotte, N.C., presented the webinar “Take Some Uncertainty/ Risk Out of Your Business” and posed the question: “have you uncovered all your risks?”

The webinar was an installment in Technology Associates’ Expertise in Business Webinar Series. John Ketner, a partner at ECM Solutions, was the presenter.

On its website, Technology Associates says there are many reasons why businesses fail or suffer great losses – but risks that are uncovered and properly planned for aren’t one of them. “So what exactly is risk in a business setting, what are the different methods of uncovering risks, and what should we do once we have uncovered one that needs attention?”
