Employers and the Next Wave of Health Care Reform

Holland & Hart offers a complimentary on-demand webinar on the most important things employers should be doing now to prepare for health care reform during 2015.

The webinar discusses what to expect and how to prepare to comply with the ACA employer reporting requirements, and recent changes to the rules for determining full-time employee status and applicable employer coverage requirements.

The presenters also talk about important transition rules that delay the effective date of certain ACA requirements for some employers, and about the Administration's enforcement efforts targeting employers who "dump" their employees on the exchanges.
