Enterprise Policy Compliance for Managing Spreadsheet Risk

Aruvio has posted a free on-demand webinar on managing spreadsheet risk and enforcing spreadsheet policies at all enterprise levels.

On its website, Aruvio says data and information captured on spreadsheets may be the most critical components for running any business. At the enterprise level, the overwhelming volume of existing spreadsheets and documented data creates incredible risk for displacement, loss or improper modification. Managing this spreadsheet risk and enforcing spreadsheet policies at all enterprise levels is crucial for achieving successful Governance, Risk and Compliance (GRC). How do you know whether you are truly reducing your enterprise's spreadsheet risk?

Watch the on-demand webinar.
