

Complimentary Webinar: Best Practices for Managed Review

A one-hour complimentary webinar from eTERA will provide executives and their legal teams with best practices for managing document review projects, regardless of size and scope.

The webinar will be Wednesday, June 17, 2015, from 11 am to noon EDT.

In a release, eTERA said that document review, in many respects, is considered to be the most fundamental, costly and time-consuming aspect of the eDiscovery process. With the complexity and volume of today's data only increasing, it is imperative for organizations to utilize best practices in managing the document review process, which will result in cost savings, increased efficiencies, enhanced decision making abilities and defensibility.

The release continues:

eTERA's Ashish Prasad, Esq., Vice President and General Counsel, Todd Haley, Vice President of Business Intelligence, and Vazantha Meyers, Esq., Director of Managed Review, will discuss the following key topics:

- Development of the document review team
- How to ensure quality control
- Targeted keyword searches
- Review reporting and key metrics
- Avoiding several common pitfalls
- Privilege review
- Technology Assisted Review ("TAR") including threading, near-duplication, context and predictive coding
