

Why a Litigation Technology Partner Can Enhance Your Forensics Practice

eTERA Consulting will present a **free webinar** on the benefits of forensic accounting firms partnering with a data and technology management company.

The webinar will be Thursday, July 23, at 1 p.m. Central time.

“Many times, projects that begin in a forensics practice end in attorney review,” the company said in a release. “By creating a close partner relationship between your forensics practice and a data and technology management company, you can create results that include increased revenue for you, lower costs for your clients, and a better relationship with the legal team. This relationship can provide custom solutions that fit seamlessly with your current forensics services. Enjoy the benefits of the latest legal technology and data experts without the cost of bringing them in-house.”

The release continues:

As a leading data and technology management company, eTERA Consulting has successfully worked with forensic accounting firms, including the 11th largest in the country. This webinar will provide you with important business information about the following:

- The link between forensics and litigation technology
- Why partner with a data and technology management company
- Why eTERA Consulting is the best partner for your team
- The Electronic Discovery Reference Model services that can grow your practice
- Examples of how this relationship has benefited partners

and clients

- The various benefits you will receive as an eTERA Consulting Alliance One Partner
- How to get started as an Alliance One eTERA Partner

A current Alliance One Partner will also share his experiences to-date including why he chose to join, the easy process in becoming a partner, and the benefits behind the program.

Register for the webinar.
