

Exploring the In-House Balancing Act of Cost Management

✖ Bridgeway University will present a webcast that explores the balancing act of reducing legal costs while managing risk. The webinar will be Tuesday, August 26, at 12 p.m. Central time.

Unless carefully managed, simply cutting costs can undermine one of the legal department's most important functions: managing risk. Join Joy Saphla, Managing Director of Duff & Phelps Legal Management Consulting Practice as she discusses how imprudent cost reductions can be counter-productive when not aligned with risk management philosophies and goals. She will share practical ways a legal department can deliver sustainable cost reductions, while delivering first-rate legal service that can enhance risk management and deliver tangible value.

Special guests will be Joy Saphla, Managing Director of Duff & Phelps, and David Lamb, General Counsel of the Scott Fetzer Company.

Register for the webinar.
