Exterro Starts ‘Vacation from E-Discovery’ Promotion

Exterro, a provider of e-discovery and information governance software solutions, is offering participants a chance to win a $400 gift card from American Airlines.

Participants are invited to answer a single question about e-discovery to be entered into the contest.

“Exterro was founded with the simple vision that applying the concepts of process optimization and data science to the way companies respond to litigation would drive more successful outcomes at a lower cost,” the company says on its website. “To this day, we remain committed to this vision as we deliver E-Discovery and Information Governance software solutions that help you manage your information assets more efficiently.”

Register for the gift card.
