Fenwick’s Major Washington, D.C. Office Expansion Marks Year of Growth

Fenwick has relocated its Washington, DC office to 1155 F Street NW, 12th Floor. We first opened our doors in DC in 2021. Since then, we’ve continued expanding to address growing demand for regulatory, antitrust, and investigations counsel.

The new space is designed for our innovative clients, with advanced collaboration technology, enhanced digital security, dedicated briefing and case rooms, and proximity to key agencies and courts.

This relocation, together with our Boston office launch and continued expansion in New York, further strengthens our coast-to-coast platform and ability to support companies from formation to complex regulatory and enforcement matters.
