Webinar: Recent Updates in Design Patent Law

Fitch, Even, Tabin & Flannery LLP will host a complimentary webinar, "**Recent Updates in Design Patent Law**," presented by Fitch Even partners Calista J. Mitchell and Joseph H. Herron. The webinar will take place on Wednesday, October 12, 2016, at 9 am PDT / 10 am MDT / 11 am CDT / 12 noon EDT.

Understanding the latest developments in case law and USPTO examination standards is important to drafting effective design patent applications. This webinar will address numerous current issues in U.S. design patent law. It may be of interest to those who seek to broadly protect products with design patents, as well as those who draft design patent applications, litigate design patents, or prepare freedom-to-operate or patentability analyses for design patent applications.

Our speakers will cover these topics and more:
• Recent court decisions involving design patents
• The role of obviousness in patentability and invalidity determinations
• Current trends in examination by the USPTO

CLE credit has been approved for California and Illinois and is pending in Nebraska. Other states may also award CLE credit upon attendee request.

Following the live event, a recording of the webinar will be available to view for one year at fitcheven.com.

Register for the webinar.
