

Harrity & Harrity Receives Washington Business Journal Corporate Citizenship Award

Harrity & Harrity, LLP received the Washington Business Journal (WBJ) Corporate Citizenship Award in recognition of its partnership with the American Heart Association (AHA) of Greater Washington Region.

Part of the WBJ's Corporate Philanthropy Awards, the Corporate Citizenship Award honors partnerships between Washington, D.C. metro area businesses and nonprofits that demonstrate positive outcomes for both organizations. Harrity and other winners will be formally honored in November at the WBJ's annual Corporate Philanthropy Awards event.

The firm said Harrity began its partnership with the AHA of Greater Washington in 2017, joining forces to fight heart disease by working to educate policy makers, health care professionals, and the general public, with the goal of one day ending heart disease. The partnership was borne out of John Harrity's personal experience of suffering and recovering from a "widow maker" heart attack in 2016 at the age of 49. The following year, Harrity launched Harrity 4 Charity, through which Harrity partners pledge to give 5 percent of their profits and Harrity employees pledge to donate a portion of their paychecks to partner charities.

Since 2017, Harrity partners and employees have donated countless volunteer hours to fighting heart disease. The firm also partners with the AHA of Greater Washington for its annual Lawyers Have Heart 10K Race, 5K Run & Fun Walk, which this year raised more than \$900,000 for the cause. The last two years, Harrity has not only been the top corporate sponsor of the race, but also the top fundraiser. Most recently, the

AHA of Greater Washington named John Harrity and Harrity & Harrity Controller Sandra Maxey co-chairs of the 30th annual Lawyers Have Heart 10K Race, 5K Run & Fun Walk. Also as part of its commitment to the cause, Harrity hosts the annual Harrity Race 5K Run and 1 Mile Fun Run, with 100 percent of the event's proceeds going to the AHA of Greater Washington.
