

Ask a Patent Attorney: Intellectual Property Strategy Q&A Video

Dylan O. Adams, a senior patent attorney and author of “Patents Demystified: An Insider’s Guide to Protecting Ideas and Inventions,” presents an on-demand webinar on patent protection.

The complimentary 53-minute video is available at **BrightTalk.com**.

Adams has experience with U.S. and foreign patents in a wide variety of technology fields, including software, computer hardware and biotechnology.

This webinar explores which patent protection strategy best fits a company’s business goals, both short and long-term. It also covers best practices on how to work with patent attorneys to craft the strategy that fits current and future budget constraints, and how to leverage patent assets and derive the most value from them.
