

2017 AIA Contract Documents Update

Cozen O'Connor has published **an update** that reviews the new construction contract documents adopted by the American Institute of Architects (AIA).

" In 2017, AIA updated some of its core documents, including the A102 (Standard Form Agreement Between Owner and Contractor), A201 (General Conditions of the Contract for Construction), and B101 (Standard Form Agreement Between Owner and Architect), among others," the client alert states.

"Because of the widespread use of these forms on construction projects, it is important for industry professionals to be aware of the 2017 revisions to allow for efficient review and finalization of contract documents without running the risk of overlooking a critical change."
