

Key Terms for Provider Contracts

Kim Stanger, writing for Holland & Hart, offers a brief **summary** of some terms or issues that should be considered in provider agreements.

The article discusses such topics as regulatory compliance, written agreements, parties, the nature of relationships, services, schedules, location, independence, intellectual property, use of information, outside activities, qualifications, representations and warranties, performance standards, medical records, employer obligations, compensation, bonuses, benefits, exempt status, referrals, assignment of fees, liability insurance, and more.
