Corporate Risk Management 2017 – 4 Key Trends

A webinar featuring the chief operating officer of **Interfor International** will discuss corporate security as it continues to evolve in a growing and complex matrix of threats and responsibilities.

The **webinar** will be Thursday, March 2, at 2 p.m. EST.

Don Aviv, CPP, PSP, PCI, Chief Operating Officer, Interfor International, will take a look at the 2017 security landscape and explore four trends central to delivering quality corporate safety and security.

During the webinar, he will discuss:

1. Successfully deploy corporate security systems:
2. Improving workplace violence awareness and response
3. Protecting the lone employee and duty of care responsibility
4. Enhancing global employee communication and location awarenesscu

Register for the webinar.
