Event: Digital Transformation in Corporate Legal Departments

Morae Global and SimpleLegal will present a **breakfast and a panel discussion** offering a practical look at digital transformation in corporate legal departments.

The complimentary event will be Wednesday, April 3, 2019, 7:30-9 a.m. CDT, Wells Fargo Plaza, 1000 Louisiana Street, Ground Floor Auditorium, Houston, TX 77002.

Digital transformation has become a rallying cry for business and technology strategists, the sponsors said in a release. Unfortunately, only 19 percent of in-house legal teams are well positioned to support enterprise digital efforts (Gartner). This presents a great opportunity for legal departments to use new technologies to reduce operating costs, increase productivity, and deliver enhanced new services to their company and adhere to regulatory and compliance obligations.

The event will cover:

- The Way We Work – Rethinking workflows and ensuring that the right people are doing the right work.
- Transformative Use of Technology – Considering how to leverage digital technologies in transforming work, collaboration and business facilitation.
- Use of Data Analytics – How businesses can identify previously unknown correlations among data to better predict outcomes, optimize delivery, mitigate risk, and tailor solutions to consumer demands and expectations.
- Change Management and Adoption – Best practices on leveraging change management to assist in the successful digital transformation of the legal department.

The panel will consist of Russ Dempsey (AGC at AIG), Ben Chrisman (AGC at Gridliance) and Ryan Murphy (Director of Legal Operations at LyondellBasell).

Register for the event.
