Zapproved Planning PREX Conference 2018

Zapproved will present a **PREX event** designed to provide education and networking for in-house ediscovery, on Sept. 25-27, 2018, in Portland, OR.

The selection of sessions will be curated especially for in-house ediscovery leaders, practitioners, and partners, the company says on its website.

“Together, we’ll pursue the vital intersection of innovation and collaboration within the corporate legal operations ecosystem and how to navigate those changing dynamics to advance your organization and career,” Zapproved says.

Zapproved says PREX promises both education and excitement, offering new ideas to grow a career and network with ediscovery experts, judges, and professionals across legal, IT, and business operations disciplines. The event will include three full session tracks, an executive roundtable, and a day-long user group.

The company says the event is designed for corporate general counsel, directors of compliance and information governance, directors of e-discovery, paralegals and legal discovery specialists, directors of discovery and legal operations.
