

General Counsel Institute – Going Beyond Legal

Berkeley Law Executive Education and The Peer 150 announce the opening of registration for The General Counsel Institute, a virtual professional development program for mid-career in-house counsel taking place over four half days in June 2021.

The General Counsel Institute is Going Beyond Legal.

The multi-day, virtual program for in-house attorneys will bring together a wide range of executives from the C-Suite and beyond to discuss how they work with, and are impacted by, in-house legal professionals. Sessions will include fireside chats between CEOs and their GCs, presentations by CFOs and CIOs, and talks by other leaders who will share their experiences working cross-functionally to achieve organizational goals.

The program will run over four half days in June.
