# General Counsel Salary is at a 1:3 Ratio to Their CEOs 

A new report by Equilar finds that companies with revenue between $\$ 1$ billion and $\$ 15$ billion pay their CEOs 3.7 times what they pay their general counsel.

The report (via Above the Law) puts the ratio for companies with revenue less than $\$ 1$ billion at 3:1.
"But don't go crying for in-house counsel just yet." writes Above the Law's Elie Mystal. "Median GC salary at the largest companies was $\$ 650,000$, while the smaller companies Equilar tracked still posted at $\$ 325,000$ median salary for general counsels. Which is pretty decent scratch, all things considered."
