Challenges in Compliance and Corporate Governance

Gibson Dunn has posted a free webinar discussing practical approaches for building a robust compliance program that is risk-driven and integrated into the business.

“The extraordinary events of the past year, from international cybersecurity breaches to significant economic and trade sanction developments, emphasize the expansive array of challenges facing today’s compliance professionals,” the firm says on its website.

The presentation features new Gibson Dunn partner Lori Zyskowski, formerly Executive Counsel, Corporate, Securities & Finance at the General Electric Company, where she advised GE’s board of directors and senior management on corporate governance and securities law issues, and of counsel Daniel Chung, an experienced trial and appellate attorney who previously served as an Assistant United States Attorney in the Southern District of New York where he investigated and prosecuted a wide range of complex federal criminal cases.
