

Hanzo Webinar: Web Archiving For Compliance – Getting All Of Your Dynamic Content

Modern corporate websites incorporate interactive features like sliders, videos, dropdowns, forms, and personalized customer journeys to aid in storytelling and communicating effectively with customers. However, these same interactive features challenge most archiving solutions and demand powerful tools for capturing this data reliably and comprehensively. In this session, join us to experience how Hanzo ensures your websites are captured with high fidelity and are immutably stored to meet your ongoing compliance obligations.

Speaker

Justin Kreamer, Senior Enterprise Executive, Hanzo

Justin is a Senior Enterprise Executive at Hanzo. He consults with Fortune 500 companies desiring to transform the efficiency and effectiveness of their compliance and ediscovery initiatives. Justin brings specific experience in helping large enterprises proactively manage complex data sources such as dynamic web content and collaboration application data.
