

HIPAA Myths: What Do You Know?

✖ The Compliancy Group will present a free webinar about HIPAA and the myths that have developed about HIPAA compliance.

The webinar will be Tuesday, Sept. 9, 2-3 p.m. Eastern time.

HIPAA is a complex law with many ins and outs that requires a thorough understanding of the law and regulations, Compliancy Group says on its website.

The complexity has given rise to numerous myths about what HIPAA actually does. To avoid creating unnecessary issues and frustration, hear about common issues that others encounter and learn how HIPAA will actually work in each circumstance. A good understanding of HIPAA will enable better compliance and make everyone happier.

The panelist will be Matthew Fisher, Esq., of Mirick, O'Connell, DeMallie & Lougee, LLP.

Register for the webinar.
