

Horse/Cattle Collision Litigation Expert

Bob Kingsbery

Livestock Fencing & Behavior Expert

Bob Kingsbery

Collisions with loose horses and cattle happen every day. 28,000 people are injured and more than 200 people are killed in auto/animal collisions every year, according to the Centers for Disease Control.

Bob Kingsbery is a leading expert on livestock fencing and behavior. He has designed, marketed and built all kinds of livestock fencing. He has written hundreds of articles about installing and maintaining livestock fencing, and has conducted hundreds of demonstrations and seminars on livestock fencing throughout the world.

Kingsbery has consulted hundreds of cases involving auto/livestock collisions and motorcycle/livestock collisions throughout the United States. He has also worked on numerous horse, cattle and agriculture-related cases.
