

# How To Advance Your Career in E-Discovery

✖ The Association of Certified E-Discovery Specialists will present a complimentary webinar on preparing for success in the e-discovery business.

The one-hour webinar will be Wednesday, July 23, beginning at 1 p.m. Eastern time.

This webcast is for any aspiring, mid-level, or veteran professional in the e-discovery and legal technology space who is looking to stay current with industry hiring trends, improve value and marketability to a current or future employer, has curiosities about what to learn next, and wants to accelerate earning potential. Seasoned industry career manager and staffing recruiter, Jared Coseglia, will guide participants in a step-by-step analysis and discussion of the following topics:

- Careers in e-discovery as they relate to different geographic market variables (both domestic and abroad),
- Hiring trends for various levels of talent (analysts, specialists, project managers, managers, directors, consultants, sales, and more),
- Vertical and horizontal growth options,
- Emerging career tracks and the future of e-discovery,
- The resume and the job description,
- Insights and best practices for hiring managers in law firms versus vendors,
- An understanding of corporate hiring trends, and,
- Salary statistics based on geography, position, and years of experience.
