How to Scale Up Demand for U.S. Clean Energy and Green Bonds

Clean Energy Group and Croatan Institute have posted an on-demand webinar on the first comprehensive study of U.S. institutional investors' appetite for green bonds.

On the Clean Energy States Alliance site, the organization says the study, "What Investors Want: How to Scale-Up Demand for US Clean Energy and Green Bonds," provides a blueprint for growing the market for fixed-income securities to finance clean energy projects and solve climate problems.

In this webinar, guest speakers from Clean Energy Group and Croatan Institute discuss their findings.

Watch the on-demand webinar.
