

In-House Impact: Life Sciences 2020

In-House Impact: Life Sciences 2020 is the first dedicated national forum for life sciences legal leaders to accelerate their journey (and that of their teams) from legal specialist to strategic business partner.

For the first time, we'll be shining a light on how the most high-impact legal teams are embedding innovation, collaboration and creativity into their DNA, sharing exactly how that's allowing them to move from minimizing risk to maximizing opportunity in operating as true partners to their rapidly growing scientific business and helping them get better drugs to patients faster.

Download your copy of the Event Guide to see what else you will take away.

Among those sharing their stories of what's working – and what's not – in making this critical journey, include:

- Monika Dorda, Senior Vice President & General Counsel, Global Pharmaceuticals, **GSK**
- Maurus Schreyvogel, Chief Legal Innovation Officer, **Novartis**
- Marcela Kirberger, General Counsel & Secretary, **Roche Diagnostics Corporation**
