Increase Profits Using Patient Payments on File, Recurring and Online Bill Pay

Compliancy Group will host a complimentary webinar to help health care organizations manage patient receivables in a more efficient, profitable way.

The 90-minute webinar will be Tuesday, Jan. 20, at 2 p.m. Eastern time.

With the rise of high deductible insurance plans and increased practice revenue coming directly from a practice's patient receivables, it is extremely important to manage patient receivables with a different mindset, Compliancy Group says on its website. The webinar is intended to help participants find out new ways to utilize billing options to reduce collection costs, increase profits and shorten the revenue cycle.

CardChoice International is the trusted advisor to both the American Medical Billing Association and the Practice Management Institute, and has partnered with health care organizations, to educate their members on the best methods for revenue cycle management, Compliancy Group says.

Register for the webinar.
