International Contracts: Preventing Problems and Managing Disputes

The international law firm Eversheds has posted a free on-demand webinar on various issues which commonly arise in international contracts and will provide practical tips on how to deal with them by reference to recent cases.

Richard Little and Alison Brearey are presenters for the webinar.

The webinar covers protection in advance (performance bonds, guarantees, letters of credit, currency risk), governing law and jurisdiction clauses, international contractural interpretation (focus on good faith), litigation or arbitration and tiered dispute resolution clauses, and practical tips for dealing with disputes.
