Introducing Morae Legal – Igniting Business Performance

A new company, **Morae Legal**, has begun operating, offering law department management consulting, outsourced legal services, discovery consulting and services, and claims management services.

“Law departments no longer have the luxury of viewing themselves as firefighters immune to the use of strategy, process and technology,” said Shahzad Bashir, Morae’s President and Chief Executive Officer. “Today, they face the same pressures and need similar solutions as the rest of the business.”

“Days when law departments could focus solely on legal advocacy and rely on the best legal outcome, no matter the cost, are long gone. Today, they must apply processes, data and metrics to make informed and better business and economic decisions,” he continued.

“Law departments looking to improve their business performance are looking for a full service integrated solution provider to turn to for advice, as their counterparts like the Chief Financial Officer or the Chief Information Officer have had. Today, Morae Legal is just that kind of provider for the Office of the General Counsel. And this is not theoretical. Morae Legal has been created from the ground up to be exactly that – a single integrated service provider to law departments.”
