

Judicial Watch Obtains Records Showing NIAID under Dr. Fauci Gave Wuhan Lab \$826k

“Judicial Watch today announced that it obtained 280 pages of documents from the Department of Health and Human Services revealing that from 2014 to 2019, \$826,277 was given to the Wuhan Institute of Virology for bat coronavirus research by the National Institute of Allergy and Infectious Diseases (NIAID), which is headed by Dr. Anthony Fauci” posts Judicial Watch in their *blog*.

“The documents, some of which were redacted or withheld in their entirety, were obtained through a Freedom of Information Act (FOIA) lawsuit seeking records of communications, contracts and agreements with the Wuhan Institute of Virology in China (Judicial Watch, Inc. v. U.S. Department of Health and Human Services (No. 1:21-cv-00696)). The agency is only processing 300 pages records per month, which means it will take until the end of November for the records to be fully reviewed and released under FOIA.”
