

King & Spalding Recruits Construction Partner Ingrid Myers to its Corporate, Finance and Investments Practice

King & Spalding today announced that Ingrid Myers has joined as a partner in the firm's Corporate, Finance and Investments (CFI) practice group in its Houston office. Myers's practice focuses on the drafting and negotiation of construction-related contracts for the development of energy and other major infrastructure projects.

Myers assists clients in the development of LNG, solar, biomass, and nuclear facilities. She has prepared bid requests and drafted and negotiated engineering, procurement, and construction contracts; technology licenses; and equipment supply, operations and maintenance, and fuel supply agreements. Myers also regularly represents clients in connection with decommissioning projects, particularly decommissioning of nuclear power generation facilities, as well as in the acquisition and disposition of energy industry companies and projects, including coal mining companies and power generating facilities.

Myers joins the firm from Morgan Lewis. Before attending law school, she worked as a geologist in the mining and petroleum industries. Myers received her JD from the University of California, Los Angeles School of Law, her Ph.D. from James Cook University of North Queensland, Australia, and her M.Sc. and B.Sc. degrees from the University of Nevada, Las Vegas.

The firm's U.S. construction transactional team is the largest

of its kind in the United States, and with the addition of Myers, the firm's Houston office has four partners and seven associates focusing almost exclusively on the drafting and negotiation of construction-related agreements.
