Delivering Successful Ediscovery Projects Across the Globe

Kroll Ontrack presents a complimentary on-demand webinar discussing successful e-discovery on a multi-national project

E-discovery is approached differently in almost every country around the world, and international ediscovery best practices are evolving quickly in response to international litigation and investigations, the company says on its website, eDiscovery.com. “Knowing the country’s approach to ediscovery is integral to ensuring that a multi-national ediscovery project goes smoothly.”

Topics include:

- The biggest differences in approaches to ediscovery in the US, EU and APAC
- How the extraterritorial effect of US regulation affects global companies’ ediscovery tactics
- Techniques for managing ediscovery in international cases and on multiple fronts

Watch the on-demand webinar.
