

# Legal and Contracts Collaboration

☒ Optimus BT will present a complimentary webinar for legal and contract teams looking to manage full contract lifecycle from drafting contracts, to approvals, eSignatures and contract administration.

The webinar will be Thursday, August 28, beginning at 11 a.m. Eastern time.

This webinar will show case how eContracts, a SharePoint and Office 365 based software, can be used to implement various contract management processes within the enterprise with a special focus on legal document collaboration and workflow processes related to managing contract reviews and approvals between various parts of the organization, Optimus BT says on its website.

The webinar also will demonstrate eSignature capabilities as part of this overall demonstration of automating enterprise contract processes.

**Register for the webinar.**
