Legal Department Operations: A Guide for General Counsel

- ContractWorks has published “Legal Department Operations: A Guide for General Counsel.”

The publication is available for **downloading** from ContractWorks at no charge.

Legal departments are taking a multi-pronged approach to become more efficient and contribute to overall organizational profitability: they are onboarding specific people as well as technology solutions, the company says on its website.

This paper explores how certain solutions help streamline legal ops to solve common problems and the role of general counsel in the expanding legal department.
